

## LAUNCH A STARTUP AND EMBARK ON A JOURNEY TO COMMERCIALIZATION

Be empowered to launch a startup with federal or university technology, gain critical business and technical skills, and help solve challenges focused on national security and critical focus areas.

### About Crucible Ignitor

The Crucible Ignitor program is a partnership between NavalX Tech Bridge and FedTech to solve challenge statements through innovation in the West Coast region. The program offers participants the opportunity to launch a startup with federally or university created lab technology. Participants are matched with a technology and team before going through two phases of workshops to gain critical business and technical skills.

### Program Timeline & Focus Areas

**Applications accepted until:** November 1, 2024

**Program Kickoff/Bootcamp (virtual):** December 7, 2024

**Cohort Phase I & II (virtual):** December 10, 2024 through April 1, 2025

**Innovation Summit:** April 2025

**Focus Areas include:** National Security, Data Analytics, Metrology, Telecom/Networks, Electrification/Clean Energy, Water Tech., Health/Injury Prevention, Agricultural/Biofuels and more!

### Program Perks

- No fees or equity taken!
- Access to lab or university created technology
- Mentorship from seasoned entrepreneurs, technologists, and executives
- Access to entrepreneur training resources from FedTech's ecosystems
- The chance to license your assigned technology and launch a spinout company

### Are You a Good Fit for Crucible Ignitor?

Are you an entrepreneur or considering entrepreneurship?

Are you committed to and excited about starting a new company?

Are you able to commit roughly 20 hours/week?

Are you open to working with new people with diverse areas of expertise?

\*\*\*Individuals and pre-formed teams of 3 are highly encouraged to apply

**Apply Before  
Nov 1, 2024!**
